

15 SEP 1981

MEMORANDUM FOR: Chief of Operations
Physical, Technical and Area Security

FROM: [REDACTED]
Industrial Security Branch

SUBJECT: New Generation SACS Machine (U)

25X1

1. While attending the American Society for Industrial Security (ASIS) seminar in New Orleans, I had occasion to talk to [REDACTED] who is currently dedicated to the Security Access Control Systems (SACS). (U)

25X1

2. [REDACTED] advised that the "state of the art" in access control machines is constantly changing. [REDACTED] has some advanced plans on the drawing board that fit or could be adapted to our proposed construction requirements or utilized to upgrade our current access system. (U)

25X1

25X1

3. [REDACTED] advised that he would be happy to meet with the undersigned and/or anyone we designate to discuss our needs and assist in preparing a workable access control system.
